

**Valley Bible Church Softball
2010 Playoff Information**

The top two teams from each division automatically qualify for the playoffs, along with the next four teams with the best record. These twelve teams will all play at least one game on August 22 in order to potentially advance to the VBC softball championship which will be decided on August 29.

These four division winners will be seeded according to their record. The four second place teams are seeded below the division winners, according to their record. The final four wild card teams are seeded last, according to their record.

Tie-breakers

These twelve teams will be seeded by standing in their division and then by their record. There is a good likelihood of ties. Any ties will be broken first by head-to-head play (if possible) and then by the record against all common opponents (in the event of a tie with three or more teams the common opponent would need to have played all the teams), and if there is still a tie then we will compare the record of each team's opponents, and after that will be a comparison of the record of the opponents of each team's opponents, and finally (though very unlikely) the team that gave up the least amount of runs among first the common opponents and last all the games.
